

EVENT ORGANISERS' FORUM

- *The aim of the **EO workshop** is to facilitate lesson sharing as the EO cadre, share ‘top tips’ and ‘gotchas’, discuss and generate feedback for the Regulators and discuss and generate feedback for the wider symposium audience, ie display pilots and FDDs.*

- The Forum was unanimous in its desire to continue with these forums.
 - But sought more time at each Symposium
- Forum Discussion centred around:
 - Limited display assets with a WoW Factor
 - Income Generation
- BADA CEO Solicited Comment on:
 - BADA-led EO Specific Workshop before DS 19 to further discuss EO Business Activity and other related subjects.
 - It was agreed such a forum should, be established.
 - This would allow for briefings/representation from other industry Eos and national EO organisations so as to cross fertilise ideas and share best practice

- CAA/MAA Pre and Post Display Symposium would continue with a EO Forum but concentrate on:
 - EO feedback from a wider Event Safety perspective and as relevant to the wider Display Community
 - Allow for regulator feedback
